**Subject:** NexGen paper - likely accepted soon - need communications heads-up, and what about acknowledgements?

Linda Birnbaum makes a good point re rapid acceptance. We should flag this to ORD communications as an upcoming publication; not sure what if anything will be needed for communications. We have authors from NCEA, NCCT and NHEERL. It doesn't look like there are any acknowledgements (I note neither Tina nor Elaine were listed in the acknowledgment section, I guess their input was minimal); should we identify CSS and HHRA programs as sponsors of this work? The original NexGen work was mostly conducted using CSS resources, but the publication effort was entirely HHRA support for Ila and NCEA participants, and CSS time for NCCT and NHEERL. So, some coordination with CSS communications may be in order.

Here is current info from manuscript:

Acknowledgments, including grant information

Disclaimer: The views in this article are solely those of the authors, and do not necessarily reflect the views or policies of their agencies or institutes including (but not limited to) the U.S. Environmental Protection Agency (EPA), U.S. Food and Drug Administration (FDA), National Institute for Environmental Health Sciences (NIEHS), National Institute for Occupational Safety and Health (NIOSH), California EPA Office of Environmental Health Hazard Assessment (OEHHA), or European Chemicals Agency.

Dr. Krewski and Mr. Paoli are subcontractors to ICF International, a contractor to the US EPA that assisted in the NexGen Project.

**Subject:** Re: Last look at the NexGen paper

Ila, you have done an incredible job of getting this in perfect shape. Your responses to reviewers' comments are appropriate, complete, and measured.

Thank you for all of your effort. I think we will now get a rapid acceptance.

Linda
